What Can I Use These Pages For??

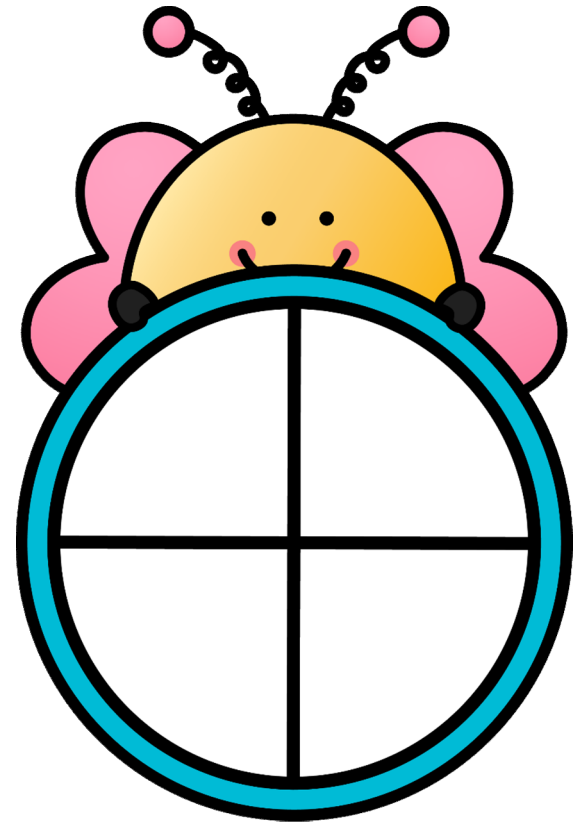

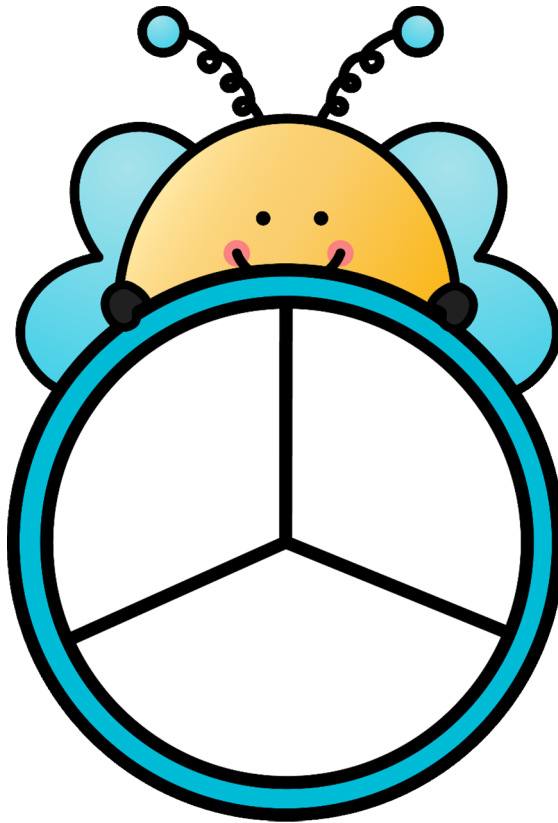

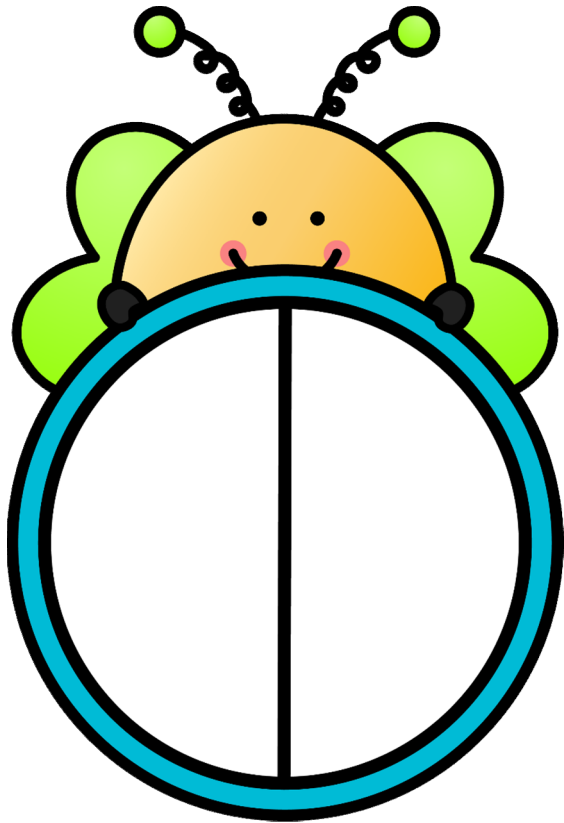

- At home, these worksheets would be great for Toddler Busy Books, playdough pages or dry erase marker pages.
- If you have a laminator I highly recommend laminating them and using them with playdough or dry erase markers.
- If you are a teacher, these pages would work great for center time, or a morning table activity.
- I use these with my daughters at home as fun exploration pages and when I have one on one time with them I can dive deeper into the learning with them.
- Enjoy!
